OBJECTIVE

My aim is to work with people to further the spread of different ideas using applications and making them for the sole purpose of letting people feel immersed in the ideas expanded upon applications. I am also committed in taking advantage of every opportunity to further my skills and talents.

EXPERIENCE

LEAD DEVELOPER
LOT DESIGNS | July 2019 - Present
I am the overall lead developer for Lotdesigns. I create websites for our clients and create interactive solutions like games and applications. I maintain the lotdesigns website.

UNITY DEVELOPER
ZIRO | March 19 - July 19
I am a developer on an onboard entertainment system for ZIRO, a ride sharing app. My responsibilities are creating the entertainment system for Android Devices on the Unity 3D engine. My key goal is to develop a lightweight and functional application.

GAME PROGRAMMER
Proto Design Worx | August 18 - January 19
I was a programmer of Proto Design Worx. Currently working on an educational Augmented Reality Projects. My key responsibility on the project is to program systems and create the main backbone of the application.

LEAD GAME DEVELOPER
Zaini Media FC LLC | September 17 - Jun 18
I was incharge of being the lead developer of Zaini Media. I also maintained the website of Zaini Media. My key responsibilities in the company usually involved creating concepts and creating applications for our clients.

EDUCATION
